

## WEB CLIENT

Subscriber control from browser: voice calls, text messages, GPS monitoring, radio check/kill, subscriber registration

- Data communications via NAI for Capacity Plus and Linked **Capacity Plus**
- No control stations and sound cards for IP Site Connect

representation of network topology and coverage map analysis

### **TELEPHONE INTERCONNECT**

Private and group calls from telephone to radio subscribers and telephone calls to/from the dispatcher consoles

Smartphone operating within SmartPTT network and allowing voice & text message exchange within radio system

networks

#### INDOOR TRACKING

Location tracking inside buildings and other locations where GPS tracking is not available

# Why SmartPTT?

# **Integrated Dispatch Control**

- All types of voice calls on the dispatch console: private, group, all call
- GPS and indoor tracking
- Emergency calls
- Job ticketing
- Customizable dispatch consoles and touch screen support

# **Unified Communication Infrastructure**

- Radio network bridging single communication environment for multiple independent radio networks
- Telephone interconnect voice calls between radio and telephone subscribers

1.1.11.11

-94.0 -94.0 -94.0

----

Analog Select 5 and MDC signaling support

# **Administration and Monitoring**

- In-depth network monitoring, analysis and system data logging
- Coverage map display
- Hardware diagnostics and failures logging
- Remote repeater administration: channel change, power level settings, enabling and disabling

## **Personnel Safety**

A set of the set of th

Man Down

4440

Lone Worker

-

- Blast Alarms
  - Evacuation Voice Messages

# **Cutting Edge Technology**

- Remote command and control centers
- RG-1000 hardware gateway for connection to MOTOTRBO systems

- Mobile solutions
- Direct IP connection to MOTOTRBO repeaters
